AKHTAR SHAIKH

FRONTEND&AIAUTOMATIONDEVELOPER | CLOUD ENGINEER

Phone: +91 79722 72861 **Email**: akhtarshaikh0299@gmail.com **Location**: Chh. Sambhajinagar, MH

LinkedIn : https://www.linkedin.com/in/akhtarshaikh-mac/ **GitHub:** github.com/akhtar-mac

PROFESSIONAL SUMMARY

Frontend-focused developer with strong experience in building responsive web and mobile applications using React and React Native. Passionate about AI agent development, local LLM workflows, and automation. Hands-on with cloud deployment basics (AWS, Docker), API integrations, and modern developer tooling. Currently building offline AI workspaces and multi-agent systems using Ollama, Hermes, and related technologies. Quick learner with practical exposure to full-stack concepts and DevOps practices.

WORK EXPERIENCE

Full Stack & Ai Automation Engineer

Jul 2026 - Present

Etax Wala Solutions Pvt Ltd · Chh. Sambhajinagar, Maharashtra, India

- Developed and delivered a complete LMS platform with student mobile app, admin dashboards, course management, assessments, payments, progress tracking, and role-based workflows.
- Built and launched the company's complete website ecosystem, including responsive websites, management dashboards, enquiry/admission systems, invoices, ID cards, and other business modules.
- Developed cross-platform web and mobile applications using React, React Native, Node.js, Express, and MongoDB, with end-to-end API and backend integrations.
- Implemented cloud deployment, Docker-based environments, automation workflows, and third-party integrations to support production-ready business applications.

Full Stack Developer

Jun 2021 - Jul 2026

Just Logic Software Pvt Ltd · Chh. Sambhajinagar, Maharashtra, India

- Developed and maintained web and cross-platform mobile applications using React, React Native, and MERN stack.
- Worked on frontend architecture, API integrations, and performance improvements.
- Assisted in cloud deployments (AWS EC2) and Docker containerization for development and production environments.
- Collaborated on backend integrations and automation workflows for business clients.

React Native Developer

Feb 2020 - May 2021

Subtle Solution Pvt Ltd · Chh. Sambhajinagar, Maharashtra, India

- Designed and developed cross-platform mobile applications using React Native, with a focus on performance, scalability, and seamless user experience.
- Built responsive, interactive web interfaces with React.js, translating business requirements into clean, maintainable component-based code.
- Collaborated with cross-functional teams to ship new features, resolve production issues, and improve overall application quality and release velocity.

Freelance Developer **Jun 2019 - Present**

Self-Employed · Remote (running alongside employment)

- Delivered multiple web and mobile projects for clients, focusing on React/React Native frontends and basic backend integrations.
- Explored cloud deployment practices using AWS, Docker, and VPS environments.
- Built and experimented with AI-powered automation tools and LLM-based workflows.
- Built custom automation workflows integrating third-party APIs and established foundational CI/CD pipelines, reducing manual overhead for clients by streamlining release processes.

PROJECTS

Offline AI Development Workspace **Personal Project**

Tech:React · Node.js · Python · Ollama · Docker · Linux · OpenRouter

- Designed a portable, fully offline AI platform with a browser-based dashboard for coding, terminal execution, and AI assistance — no internet required after setup.
- Integrated Ollama for local LLM inference with dynamic model selection based on available system resources, balancing performance and memory usage.
- Implemented persistent local memory, multi-user profiles, and cross-platform compatibility (Windows, Linux, macOS); deployable directly from external storage.

AI Agent & Business Automation Platform **Personal Project**

Tech:Python · OpenRouter · Discord · Telegram · Ollama · Hugging Face · Docker - Hermes - Openclaw

- Built a multi-agent system using a manager-worker architecture for task delegation — covering coding assistance, research, customer support, and operational orchestration.
- Deployed AI agents across Discord, Telegram, and web interfaces with persistent session management and support for both local and cloud LLM backends.
- Integrated multiple AI models and external APIs to improve task accuracy; containerised all services with Docker for portable, scalable deployment on VPS.

Containerised Deployment Environments **Freelance Project**

Tech:Docker · DockerCompose · Linux · AWSEC2

- Created reusable Docker images and Compose configurations to standardise local and production multi-service environments across freelance client projects.
- Significantly reduced environment-specific bugs and streamlined dev-to-production transitions, saving meaningful setup time per deployment.

TECHNICAL SKILLS

- **Languages & Frontend :** JavaScript (ES6+), TypeScript, Python, React.js, React Native, HTML5, CSS3, Tailwind.
- **Backend & APIs :** Node.js, FastAPI/Flask (basics), RESTful APIs, MongoDB
- **DevOps & Cloud :** AWS (EC2), Docker & Containerisation, Linux System Administration, Git / GitHub, CI/CD.
- **AI & Automation :** Local LLM Deployment, Ollama, OpenRouter, AI Agent Frameworks, Discord / Telegram Bot Automation
- **Tools :** VS Code, Git & GitHub, Figma, Docker & Docker Compose, Vercel, Supabase, Ollama, Hermes, Linux, AWS (EC2, S3), Discord/Telegram (bot development)

EDUCATION

HigherSecondaryCertificate (HSC / 12th Grade) **2016 - 2017**

Dr. R P Nath Junior College | Maharashtra State Board (MSBSHSE), Chh. Sambhajinagar
